Increase in the number of marginal farmers and agricultural labourers

3365. SHRI SURAJ PRASAD: Will the Minister of AGRICULTURE be pleased to state:

(a) whether it is a fact that there has been an increase in the number of marginal farmers and agircultural labourers in the country during the last 3 years;

(b) if so, what are the reasons therefor, and

(c) what steps have been taken to arrest this trend?

THE MINISTER OF STATE IN THE DEPARTMENT OF RURAL DEVELOPMENT IN THE MINISTRY OF AGRICULTURE (SHRI RAMANAND YADAV): (a) Statistics on the number of marginal farmers and agricultural labourers in the country during the last 3 years is not available. However, the five yearly agricultural census of operational holdings and decennial population census do indicate an increase.

(b) The possible reasons for increase in the above two categories could, among others, be attributed to fragmentation of holdings due to increase in population and partition in the family, acquisition of land, particularly for major projects, poverty, inadequate allotment of land under land distribution programmes to the landless poor etc.

(c) While steps taken to check the growth of population may also have the effect of restricting the extent of fragmentation of holdings, vairous poverty alleviation programmes including distribution of land to landless rural poor are being executed with a view to ameliorate the economic conditions of marginal farmers and agricultural labourers.
